Featuring Service Integrations with IoT, Augmented Reality, and Robotics

MODERN SERVICE EXPERIENCE

Presented by

ORACLE

APRIL 25-27, 2017 | MANDALAY BAY HOTEL IN LAS VEGAS

Calling All Oracle Service Cloud Developers

This year at the Modern Service Experience, we're crafting an experience just for application developers.

- An entire breakout track focused on the technical needs of application developers, system integrators, and solution architects focused on integrating and extending customer portal, agent desktop (.Net & Browser), and integrations with 3rd party systems.
- Two pre-conference training workshops on Tuesday
- Specific sessions will be delivered for both beginner and intermediate skill levels
- Developer meetups during networking breaks
